Subject Index

adverse effects of new treatments for diabetes, 883–890
adverse effects of statins – an update, 895–898
alanine transaminase
  increased, 889
angioedema, 900
bone mineral density
  reduced, 904
bruxism, 892
calculus
  formation inhibited, 893
cardiomyopathy, 901
cough, 900
craniofacial dysmorphism, 892
creatine kinase
  increased, 895
dental
  attrition, 892
  caries, 891, 892
  development abnormal, 892
  fluorosis, 892
depression, 897
dermatomyositis, 896
diabetes mellitus, 883, 900
drug-induced bone disease, 903–906
drug-induced dental disorders, 891–894
dry mouth. *See* xerostomia
ethnicity and adverse drug reactions, 899–902
fetal death, 897
gastrointestinal
  intolerance, 884
  ulceration, 896
glucose-6-phosphate dehydrogenase deficiency, 901
growth retardation
  prenatal, 892
Guillain-Barré syndrome, 896
haematocrit
  reduced, 889
haemolysis, 901
haemolytic anaemia, 896
headache, 896
heart failure, 884, 889, 899, 901
hepatic
  dysfunction, 900
  enzyme abnormalities, 886, 895
  toxicity, 884, 889, 901
hepatocellular necrosis, 895
hyperbilirubinaemia, 900
hypercholesterolaemia, 889
hyperglycaemia, 883, 885, 888
hyperinsulinaemia, 885
hyperprolactinaemia, 904
hypersensitivity, 900
hypodontia, 893
hypoglycaemia, 884–885, 887, 888–889
hypogonadism, 904
lactic acidosis, 897
lipodystrophy syndrome, 900
lupus, 896
microdontia, 893
migraine, 896
mononeuritis multiplex, 896
muscle cramps, 895
muscle weakness, 895–896
myalgia, 895
myocardial infarction, 885, 887
myopathy, 895, 897, 903, 904
myositis, 895
myotoxicity, 895
neuropathy, 896, 899, 900
ocular haemorrhage, 896
oedema, 884, 889
osteoarthritis, 896
osteomalacia, 903, 905
osteonecrosis, 903, 904, 905
osteopetrosis, 905
osteoporosis, 903, 904, 905
pancreatitis, 896
plasma volume
  increased, 889
polycystic ovary syndrome, 889
polyneuropathy, 896
rash, 896
respiratory depression, 900, 901
retinopathy, 885
rhabdomyolysis, 895, 896, 897
SIADH, 901
sinusitis, 896
steatohepatitis, 884, 886

suicide, 897
teratogenesis, 897
testosterone, 897
thrombotic thrombocytopenic purpura, 896
tooth
  agenesis, 893
  discolouration, 891–893
  erosion, 892
  size increased, 893
tumour
  breast, 885
weight gain, 884, 885, 887, 889
xerostomia, 892, 893
